5 Content Formulas to Grow Your Audience and Build Your Business

from Hey Evee · heyvee.com

Hey mama. These 5 formulas work for every niche, every stage, and every goal. Each one comes with two examples — one to help you grow your audience and one to show you how to use the same formula to make money. Fill in the blanks and post today.

CHEAT CODE 01

The Real Mom Confession

"Nobody warned me about [HONEST TRUTH] until [WHAT HAPPENED]."

This formula works because it is disarmingly real. Moms stop scrolling when they feel seen. The more specific and honest you are, the more it gets shared.

GROW YOUR AUDIENCE

""Nobody warned me about the 3am anxiety spiral until I became a mom. If you are lying awake right now — you are not alone and this is for you.""

Why it works: Vulnerability drives shares. Other moms will send this to their group chats.

GROW YOUR INCOME

""Nobody warned me how exhausted I would feel until I started tracking my sleep with [product]. Game changer for tired moms — link in bio.""

Why it works: The confession creates trust. The solution feels like a friend recommendation, not an ad.

CHEAT CODE 02

The Hot Take

"Unpopular opinion: [BOLD STATEMENT ABOUT YOUR NICHE] and here is why."

Hot takes stop scrolls because people either nod along or want to argue. Both drive comments and comments tell the algorithm to push your content to more people.

GROW YOUR AUDIENCE

""Unpopular opinion: you do not need to post every day to grow on TikTok. Consistency matters more than frequency. Here is what actually works.""

Why it works: Challenges conventional wisdom and makes people want to hear more.

GROW YOUR INCOME

""Unpopular opinion: most mom planners are designed for people without actual kids. I switched to [product/affiliate] and my whole week changed. Here is why.""

Why it works: The disagreement with the status quo positions your recommendation as the real solution.

CHEAT CODE 03

The Before and After

"I used to [OLD STRUGGLE] until I [WHAT CHANGED]. Now I [RESULT]."

Transformation content is the most powerful content on the internet. It gives your audience hope — and hope is what makes people follow, save, and buy.

GROW YOUR AUDIENCE

""I used to spend 2 hours a week stressing about what to post until I built a simple content system. Now I batch everything in one Sunday nap time. Here is exactly how.""

Why it works: The result is specific and relatable. Moms save this type of content to use later.

GROW YOUR INCOME

""I used to skip breakfast every single morning until I found [product]. Now I have energy before 9am for the first time in years. Link in bio.""

Why it works: The before creates identification. The after creates desire. The link is the natural next step.

CHEAT CODE 04

The Problem Solver

"If you struggle with [SPECIFIC PROBLEM], try this: [SIMPLE SOLUTION IN 3 STEPS OR LESS]."

Educational content that solves a real problem gets saved more than any other content type. Saves are one of the highest-value signals you can send the algorithm.

GROW YOUR AUDIENCE

""If you struggle with running out of content ideas, try this: Step 1 — write down 3 questions moms ask you. Step 2 — answer one per day. Step 3 — post it exactly how you would text a friend.""

Why it works: Actionable, specific, and immediately useful. High save rate = algorithm push.

GROW YOUR INCOME

""If you struggle with dinner at 5pm, try this: Step 1 — prep proteins on Sunday. Step 2 — keep [product] stocked as your backup. Step 3 — give yourself permission to not cook from scratch every night.""

Why it works: Solving a real problem first builds trust. The product recommendation feels helpful not pushy.

CHEAT CODE 05

The POV Story

"POV: You are a mom who [RELATABLE SITUATION] and you just discovered [INSIGHT OR SOLUTION]."

POV content is one of the highest-performing formats for mom creators because it puts the viewer directly inside the moment. It feels personal even at scale.

GROW YOUR AUDIENCE

""POV: You are a stay-at-home mom who has been posting for 6 months with no growth and you just realized you have been talking to everyone instead of one specific person.""

Why it works: Hyper-relatable to your exact audience. Comments will flood in from moms who feel this.

GROW YOUR INCOME

""POV: You are a tired mom who just found out you can earn money recommending products you already buy every week. [Brand/affiliate platform] just sent me my first check.""

Why it works: Makes the income opportunity feel accessible and real. Drives curiosity and clicks.
